

## **Mock exam revision**

### **AQA GCSE Textile AQA 45701**

All students are currently manufacturing their final product for the controlled assessment element of the GCSE this is worth 60% of their overall grade.

All students have received a revision booklet to enable them to revise at home.

The mock exam paper will last 1 hour and is purely theory work where students will demonstrate their knowledge and understanding of the subject.

#### **There will be 5 questions in total**

##### **Question 1**

This section of the exam paper focuses on the construction and the properties of materials and their suitability for purpose.

##### **Question 2**

Manufacturing- this is a continuation from the construction of materials and looks at joining techniques and caring for materials. Methods of manufacturing are also very important in this section.

##### **Question 3**

This section asks a variety of questions relating to smart and modern materials, computerised manufacture, industrial processes and a step by step plan for a surface decoration technique. The step by step plan is 6 marks questions were students will be required to think logically about stages of manufacture and give example sketches.

##### **Question 4**

This is an 8 mark question focusing on students' quality of written communication. This question focuses on other issues relating to Technology e.g. SMSC, sustainability, environmental issues or Fair Trade.

##### **Question 5**

Students will be given a design and asked to modify and evaluate fit for purpose. Components will also be covered in this section.

If any further is required or students need any additional booklets please see Mrs Rutherford head of design and Technology.
